John P. Wilkin

Professional Positions

2008- University of Michigan Ann Arbor, MI

Executive Director, HathiTrust and Associate University Librarian for Library Information Technology

- Continued responsibility for University Library, Library Information Technology division, Google digitization, and participation on the Library's executive leadership team (see below). Assumed role as Executive Director of HathiTrust, guiding budget, operations and development of partnership. By the end of HathiTrust's third year, grew collection to nearly 10 million volumes and guided development of key policies and technologies.

2003-2008 University of Michigan Ann Arbor, MI

Associate University Librarian for Library Information Technology and Technical and Access Services

- Responsible for two of the three divisions of the University Library. Library Information Technology includes five units that provide critical technological infrastructure to the Library: Core Services (supporting system administration and system integration); Desktop Support Services (providing desktop support for staff and patrons, and support for Library networks); Digital Library Production Service (engaged in building digital library systems and providing digital conversion services); Library Systems (supporting the Library's LMS and associated systems); and Web Services (responsible for the Library's general web presence). In late 2004, added responsibility for Technical and Access Services, including: Acquisitions and Serials Cataloging; Cooperative Access Services (i.e., ILL and document delivery); Monograph Cataloging; and general metadata support. Participate on the Library's Executive Council and, in this capacity, play a key role in all University Library budget, policy, management, and leadership issues. In 2011, added Learning Technologies Incubation Group (responsible for technologies that enhance the functionality of the U-M Sakai system).
- Coordinate all phases of Michigan's large-scale digitization effort with Google, including negotiation of contract terms and Michigan's portion of implementation. The resulting effort was intended to convert the entire 8 million volume collection (now approx. 10 million volumes) from the University of Michigan libraries.

1996-2003 University of Michigan Ann Arbor, MI

Head, Digital Library Production Service (<http://www.umdl.umich.edu>)

Managed the Digital Library Production Service (DLPS) from its inception in 1996. DLPS is responsible for services focusing primarily on full-text resources, continuous tone images, and bitonal images. Grew DLPS from approximately 5 FTE to approximately 25 FTE. Responsibilities include budgeting, personnel management and performance review, planning, and policy setting.

1994-1996 University of Michigan Ann Arbor, MI

Head, Humanities Text Initiative (<http://www.hti.umich.edu>)

Created and coordinated the online initiative sponsored by the UM Press, the School of Information and the University Library. Humanities Text Initiative activities included text creation, systems development, education, technical direction of campus SGML initiatives.

1992-1994 University of Virginia Charlottesville, VA

Systems Librarian for Information Services

Library-wide position responsible for services and programs to meet information technology needs of Library patrons. Responsibilities included: operations management for the University's Internet information servers, coordination of the development of the University Library's electronic centers, including the Electronic Text Center, the Digital Image Center, and the Social Science Data Center, and general system administration. Responsible for planning and organization of staff training using new technologies, and implementing other new services and technologies as appropriate. While at the University of Virginia, provided technical guidance in support of SGML encoding for the University's Institute for Advanced Technology in the Humanities.

1988-1992, Data Services Librarian and English Selector. University of Michigan

1986-1988, Research Library Resident, University of Michigan

John Price Wilkin
